

**WE WANT YOUR RETIRED COMPUTER
& ELECTRONIC EQUIPMENT**

If you have utilized our services over the past 13 years, we want to thank you for your continued business. If you have not used our services, we would like to introduce ourselves and encourage you to give one of our representatives a call to schedule a free pickup of your obsolete and related computer equipment. We can offer your organization full data and identity destruction, fast and professional pickup service, and compliance with federal and state regulations. Your data is safe with us. Our commitment to complete customer satisfaction led us to purchase an EDR Hard Drive Crusher. The Crusher completely destroys any hard drives beyond any type of repair.

We would also like to introduce “eLoop, LLC” as our Ban/E-Steward certified partner. They are now contracted to handle

all our recyclables. When it comes to environmental compliance, we have that covered. Your assets that no longer function or are below a usable technology threshold are permanently destroyed, and commodity grade materials are reclaimed. We are a PA DEP permitted demanufacturing facility that can provide a transparent chain of custody from the time the end of life assets leave your facility, through the demanufacturing process, and finally to the downstream vendors that trade the final commodities. eLoop, LLC is a certified e-Steward with the Basel Action Network and they comply with the Recycling Industry Operating Standards (RIOS) as outlined by the Institute of Scrap Recycling Industries:

*Landfill avoidance of 98% of all material

*Nothing is processed by Prison Labor

*No untested / non-working electronic equipment is exported to developing countries

*All reclaimed commodity grade materials are resold.

If your organization has obsolete computers and related equipment that needs picked up, please feel free to call us at 800-784-1100. You may also schedule a pickup through our website at www.keystoneauctioneers.com .

If you have any questions please feel free to contact us at 800-784-1100.
